touring through **tradition and vanguard**

It was in Peñafiel, a Valladolid town held together by the heart-beat of the Duero River, where this gift of land was born.

Protos has the privilege of having been engendered in the heart of one of the most important fortresses in the area - Peñafiel Castle. This Castle is a landmark for Castilla y León region since the Wine Museum is housed in it.

The wineries, both the new and the old, with the latter being built across the inner mountain, are available for guided visits and different events. Only few can resist the temptation to discover the Duero's Heart, a place gifted with so much beauty that silence speaks to you and the heart trembles.
